KIDS Reports: Assessment Roster

TEST Notes/ Recommendations

TEST NOTES/RECOMMENDATIONS

**Accountability
School
0001**

- **Accountability School** is in another state.

**Accountability
School
0002**

- **Accountability School** is an Unaccredited Private School.
- Student is homeschooled.

**Accountability
School
0001 or 0002**

- The Attendance School must contain a valid School ID or district central office.
- Students' assessment results will be included in the Accountability determinations of the Attendance School

TEST NOTES/RECOMMENDATIONS

- ❖ **Reporting the Attendance School:** The Attendance School field on the TEST record is used to determine where students will physically take assessments.
- ❖ A student will not be able to take a computer-based assessment without a TEST record in KIDS listing the school where he/she is taking the test as the Attendance School.

TEST NOTES/RECOMMENDATIONS

❖ Formative Assessments:

- ❖ TEST records are not needed for students taking Formative Assessments — CETE administers Formative Assessments independent of KIDS.
- ❖ STCO records are still required for teachers to access to student rosters in the Educator Portal in KITE to assign students to Formative Assessments (Practice Tests).

TEST NOTES/RECOMMENDATIONS

- ❖ **Students taking Multiple Assessments:** A school can submit separate TEST records for each assessment subject OR one TEST record that includes information for all assessments.

John Doe – ELA and Math Assessments

- John's school could send one TEST with appropriate test type information in the corresponding ELA and Math assessment fields

John Doe – ELA Assessment

- John's school could send one TEST with appropriate test type information in the corresponding ELA assessment field

John Doe – Math Assessment

- John's school could send one TEST with appropriate test type information in the corresponding Math assessment field

TEST NOTES/RECOMMENDATIONS

Updating Earlier TEST Submissions:

TEST - Early

- No demographic or test information changes after the initial submission
- No additional TEST record is needed
- Do not send TEST early unless blank or for Alternate Science

TEST - Early

- Demographic or test information changes happen after the initial submission
- An additional TEST record is needed

Multiple Assess.

- If a student is taking more than one assessment and the student's demographic and/or test information does not change for every test type
- Send the updated TEST record with the updates indicated for only the test type(s) that it applies to at the time the student takes the assessment.

TEST NOTES/RECOMMENDATIONS

- ❖ **Students Attending Multiple Schools:** Because TEST records are unique by Accountability School, Student State ID, and assessment subject area, different accountability schools can submit TEST records for the same student.

**John Doe – Starts
school year**

- School A – ELA Assessment

**John Doe – Moves
during school year**

- School B – Math Assessment

Final Result

- School A – submits ELA Assessment
- School B – submits Math Assessment

TEST NOTES/RECOMMENDATIONS

- ❖ Note that if an Accountability School (or district) submits a TEST record with a value in the Accountability School that does not match the Accountability School for the student in question according to the core data stored in the KIDS System, the school or district will need to claim that student in order to successfully process the TEST record.

School A

- Submits themselves as the Accountability School for a TEST record (e.g. ELA Assessment)

School B

- Submits themselves as the Accountability School for a TEST record (e.g. Math Assessment)

School B

- Must claim the student away from school A
- No negative effect on School A
- School A may reclaim student after Assessments or beginning of next year

TEST NOTES/RECOMMENDATIONS

❖ Grouping Indicators:

- ❖ Grouping indicators with the label of 1 that are submitted on TEST records should be used to indicate the method by which the district wants **test tickets** sorted for distribution to schools and **test results** disaggregated.
- ❖ Grouping indicators with the label of 2 should be used to indicate the second method by which the district wants **test results** disaggregated.

TEST NOTES/RECOMMENDATIONS

❖ High School Alternate Assessments:

- ❖ To request an alternate high school assessment for a student in ELA, Math, and Science, schools should submit code “3” for an alternate assessment.

- ❖ **DLM/Alternate Assessment Value:** If this value is chosen for an assessment then the Primary Disability Code must contain a non-blank value.

TEST NOTES/RECOMMENDATIONS

❖ Eligibility for National School Lunch Program:

- ❖ Community Eligibility Provision (CEP) schools will need to make sure to report students that are *eligible* for free or reduced lunch based on Direct Certification or State At-Risk funding based on the State At-Risk application.
- ❖ Non-CEP schools do not need to change the way this data has been reported.
- ❖ CEP schools should NOT report 100% in this field based on CEP.
- ❖ This field collects a student's eligibility, not how a student pays for lunch.

TEST NOTES/RECOMMENDATIONS

- ❖ **Proctor Fields:** New fields will be added this year. The purpose of these fields is to give schools the ability to add an additional licensed educator to a student for the purposes of taking DLM Assessments. The fields allow the user to ensure that the correct educator is provided for this student.
 - ❖ A proctor must be a licensed educator with and Educator ID with an academic connection to the student.
 - ❖ Provides access to the student in KITE (there will not be an STCO record since the student does not have a course with this person).
 - ❖ There is a limit to one proctor per student per assessment type.
 - ❖ One State Mathematics DLM proctor
 - ❖ One State English Language Arts – ELA DLM proctor

TEST NOTES/RECOMMENDATIONS

❖ Proctor Fields:

- ❖ One State Science DLM proctor
- ❖ One CTE cPass proctor
- ❖ This is not intended to be for non-licensed paras.
- ❖ This is not intended to link a licensed educator with no academic connection to the student.
- ❖ This is not necessarily the person sitting in the room administering the assessment.
- ❖ Applies to DLM assessments and CTE assessments only.

TEST NOTES/RECOMMENDATIONS

- ❖ **Clearing a Test Subject:** In order to clear a particular test subject from a previously submitted TEST record, the school/district can send another TEST record with the exact same data for that student with a “C” (clear test subject indicator) code in the test subject field to be cleared.

Jane Doe – ELA & Math Assessment

- Initial TEST Record submission
- ELA was a mistake

Jane Doe – Clear ELA

- Resubmit ELA with same data as previous ELA assessment, but with a “C” code
- Will not effect Math assessment since “C” code is subject specific

TEST NOTES/RECOMMENDATIONS

- ❖ Submitting a TEST record with a “C” value for an assessment that has already been started or has been completed by the student in question will NOT serve to remove that student’s assessment results from calculations.
- ❖ KSDE staff will investigate situations such as these to determine whether the “C” code was submitted in error, or if further action is needed.

TEST NOTES/RECOMMENDATIONS

- ❖ **TEST Records with Blank Values:** Submitting a TEST record with a blank value in a test subject field that previously contained a value will **not** remove a student from the test roster for that subject.

Jane Doe –
ELA Assessment

- Initial TEST Record submission made
- ELA was a mistake

Jane Doe –
ELA Assessment
Correction

- Subsequent TEST Record submitted with blank in the Reading (ELA) Assessment field
- Nothing will happen
- Resubmit ELA with same data as previous ELA assessment, but with a “C” code

TEST NOTES/RECOMMENDATIONS

❖ Clear Codes & EXIT Records:

- ❖ The “C” code allows schools to remove students from assessment rosters if they were submitted in error as taking an assessment.
- ❖ EXIT records will remove students from a school or district’s state assessment roster, OTL reports, and the accountability performance and/or participation calculations (depending on the exit and school entry dates for that student); but unlike the “C” code, EXIT records are not subject-specific.

Jane Doe –
State Assessments
Upload

- Initial TEST Record submission made for Jane’s ELA, Math, and Science Assessments
- Jane moved to NE prior to testing window opening

Jane Doe –
State Assessments EXIT

- School will submit an EXIT record with Jane’s last day of membership
- EXIT will remove Jane from all State Assessments, as well as OTL Reports, Accountability performance, and participation calculations
- “C” code is only subject-specific

TEST NOTES/RECOMMENDATIONS

- ❖ **School Entry/EXIT Withdrawal Dates:** The School Entry Date on TEST records and the EXIT/Withdrawal Date on EXIT records should accurately reflect students that move within a district or to a different district during the school year. These dates are used to determine students included for participation and/or performance in accountability calculations.

School Entry Dates

- Students entering a particular school after March 7, 2015 do not have to be tested.

Exit/Withdrawal Date

- As of last day of membership
- Will remove students from a school or district's state assessment roster, OTL reports, and the accountability performance and/or participation calculations if prior to state assessments

TEST NOTES/RECOMMENDATIONS

❖ Accredited Private Schools:

- ❖ Follow same TEST guidance

When students are shared between public and private accredited schools:

Both will see an increase in Gained/Lost emails since students have more than one Accountability School.

Both should be careful to only submit TEST records for the subject areas where they intend to test the students.

Know once a TEST record has been successfully submitted to KIDS, a school does not need to “re-claim” the student to administer their state assessment.

Data

Quality

DATA QUALITY BEST PRACTICES

- ❖ Ensure D2 and D16 building fields are entered correctly regarding the responsible school and testing locations of students.
- ❖ Update school entry dates carefully on students that leave and re-enroll in the building.
- ❖ Be sure updated TEST records are sent when there are demographic or test type changes.

DATA QUALITY BEST PRACTICES

- ❖ Review test tickets in CETE for accuracy and if necessary submit corrected TEST records.
- ❖ Make sure EXIT records are sent promptly during the year since EXIT records are also used to create test tickets and in accountability calculations.
- ❖ Monitor KSDE listservs (KIDS INFO & Test Coordinator) carefully this year for any changes or announcements regarding testing.
