

Kansas College and Career Ready Standards

English Language Arts and Literacy in History/Social Studies, Science, and Technical Subjects

Grades 9-10 with Kansas 15%

Adopted 10/2010

Anchor Standards* for Literacy Learning

The “Anchor Standards for Literacy Learning” were added by the Kansas Department of Education (KSDE) as part of the KS 15% for English Language Arts**. The purpose of the Kansas 15% is to emphasize concepts and teaching philosophies that are important in Kansas. Although most of the concepts included within these standards are mentioned in the Common Core State Standards (CCSS), KSDE wanted to highlight the importance of each one.

The “Anchor Standards for Literacy Learning” underscore the idea that comprehensive literacy instruction should occur both across the curriculum and within each discipline and that *all educators* share responsibility for the literacy learning of all students. Comprehensive literacy instruction should address skills in reading, writing, thinking, listening, and speaking and should be approached in a cohesive and integrated fashion rather than as discrete skills taught in isolation.

College and Career Readiness Anchor Standards for Literacy Learning		
Literacy Learning	 1	Engage in literacy learning through a collaborative and community effort and in an integrated fashion, rather than as discreet skills in isolation.
	 2	Use meta-cognitive strategies to monitor literacy learning progress.
	 3	Engage the five essential components of reading (phonemic awareness, phonics, fluency, vocabulary, and comprehension) at all grade levels based on individual student needs.
	 4	Engage a strategic and coherent focus on literacy learning across all content areas with shared literacy responsibility from all Kansas educators.
	 5	Develop the literacy skills presented throughout these standards in both academic and career/technical education contexts.

**Four other anchor standards were added by the Kansas Department of Education as part of the KS 15% for English Language Arts. They are noted in the “Anchor Standards for Reading” and “Anchor Standards for Writing” sections below.

Anchor Standards* for Reading

According to the CCSS document, the “standards on the following pages define what students should understand and be able to do by the end of each grade. They correspond to the College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements—the former providing broad standards, the latter providing additional specificity—that together define the skills and understandings that all students must demonstrate.”

Anchor Standards* for Writing

According to the CCSS document, the “standards on the following pages define what students should understand and be able to do by the end of each grade. They correspond to the College and Career Readiness (CCR) anchor standards below by number. The CCR and grade-specific standards are necessary complements—the former providing broad standards, the latter providing additional specificity—that together define the skills and understandings that all students must demonstrate.”

(*Standards noted with a  are part of the KS 15% for English Language Arts)

College and Career Readiness Anchor Standards for Writing		
Text Types and Purposes*	1	Write arguments to support claims in an analysis of substantive topics or texts, using valid reasoning and relevant and sufficient evidence.
	2	Write informative/explanatory texts to examine and convey complex ideas and information clearly and accurately through the effective selection, organization, and analysis of content.
	3	Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details, and well-structured event sequences.
	 11	Create—both independently and collaboratively—technical, non-print, digital, and multi-modal versions of text types and purposes outlined in standards 1, 2, and 3.
Production and Distribution of Writing	4	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
	 12	Strengthen writing craft—both independently and collaboratively—through a recursive writing and revision process and the use of the common vocabulary of the 6-Trait model.
	5	Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach.
	6	Use technology, including the Internet, to produce and publish writing and to interact and collaborate with others.
Research to Build and Present Knowledge	7	Conduct short as well as more sustained research projects based on focused questions, demonstrating understanding of the subject under investigation.
	8	Gather relevant information from multiple print and digital sources, assess the credibility and accuracy of each source, and integrate the information while avoiding plagiarism.
	9	Draw evidence from literary or informational texts to support analysis, reflection, and research.
Range of Writing	10	Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.

*These broad types of writing include many subgenres. See Appendix A [of the full CCSS document] for definitions of key writing types.

Note: See page 18 of the CCSS document for the “Note on range and content of student writing” for grades K-5. See page 41 of the CCSS document for the “Note on range and content of student writing” for grades 6-12.

	WHST.9-10.1b – Develop claim(s) and counterclaims fairly, supplying data and evidence for each while pointing out the strengths and limitations of both claim(s) and counterclaims in a discipline-appropriate form and in a manner that anticipates the audience’s knowledge level and concerns.

Note: Students’ narrative skills continue to grow in these grades. The Standards require that students be able to incorporate narrative elements effectively into arguments and informative/explanatory texts. In history/social studies, students must be able to incorporate narrative accounts into their analyses of individuals or events of historical import. In science and technical subjects, students must be able to write precise enough descriptions of the step-by-step procedures they use in their investigations or technical work that others can replicate them and (possibly) reach the same results.
