

## KIDS 2013-2014 Submission Details Document: MILT

### Introduction

This document contains information specific to the submission of MILT records to the Kansas Individual Data on Students (KIDS) Collection System for the Military and Virtual Student Collection. This collection gathers student enrollment data for districts whose student population significantly increases after the September 20<sup>th</sup> (ENRL) funding count due to military movement. It also gathers student enrollment data for schools and districts with virtual education students.

### Submission Window

The window of time for submitting MILT records to KIDS is February 20, 2014–March 10, 2014. The student data that is submitted for MILT should be current as of February 20, 2014.

### Submission Guidelines

#### Students to Submit

Military Dependent Students: Eligible districts should submit MILT records for all students who are dependents of active, full-time military personnel, who are enrolled and attending on February 20, 2014, and who were not included in the September 20, 2013 district count. Districts may submit all of the students who are enrolled and attending on February 20<sup>th</sup>, or only those students who meet the definition of “child of military family.” Military dependent students who were enrolled and attending on September 20<sup>th</sup> will **not** count again for the MILT collection funding calculations, since they were already included in the ENRL funding calculations; however, submitting them will not result in an error.

Virtual Education Students: All virtual students enrolled and attending on February 20<sup>th</sup> should be submitted as part of the MILT Collection. If the student was enrolled during the first semester, but not the second semester do not report the student as a Virtual Education student on the MILT Collection.

#### Who Submits?

The Funding School should submit MILT records. For military dependent students, schools or districts where the students are enrolled should submit MILT records. For virtual education students, only those funding schools or districts providing second semester virtual education services or contracting with an approved program to provide virtual education services via a service center should submit MILT records.

## The Use of MILT Submissions

Military Dependent Students: KIDS uses the Child of Military Family field to identify students who are dependents of military personnel to determine if a district is eligible for additional funding.

Virtual Education Students: The students submitted in the Virtual Education Student field will provide a second semester virtual student count and a second semester virtual AP student count for funding purposes.

## KIDS Reports

Reports are provided in the KIDS Collection System for verification and research of submitted data. Although data can also be shared by generating the appropriate KIDS reports, KIDS users can share detailed data with the principals, superintendents and program staff by encouraging them to register for Read-Only access to the KIDS Collection System. Read-Only access is recommended since reports are dynamic and may change if additional MILT records are submitted to KIDS.

The detailed descriptions of each of the reports available in the KIDS Collection System may be found on the KIDS project website ([www.ksde.org/kids](http://www.ksde.org/kids)) under the "Report Descriptions" tab or by visiting this website: <http://community.ksde.org/Default.aspx?tabid=3500>. The following reports are particularly important to MILT submissions:

### Standard Reports:

- ☐ Accepted Records by Type—MILT

### PBR Reports:

- ☐ Virtual Education Students

### MILT Reports:

- ☐ Student of Military Families—District Eligibility for Additional Funding
- ☐ Student of Military Families—Not Counted Sept 20 ENRL
- ☐ Virtual Education Students

## MILT Notes/Recommendations

The list of recommendations, notes, and submission tips below apply to the MILT record. In working with the KIDS System, many circumstances apply only to the record you are submitting.

How each data element is reported may differ for other submissions from the recommendations appearing below.

**School Entry Date:** School Entry Date should be based on the date the student entered the Funding School.

**Weighted Funding:** The February 20<sup>th</sup> count is treated like the September 20<sup>th</sup> count for enrollment purposes and includes all weighted items (such as at-risk, vocational, bilingual, and transportation) that are assigned to these students.

**Definition of Military Personnel:** The definition of a dependent of military personnel for the MILT Collection is as follows: “a person who is a dependent of a full-time, active-duty member of the military service, or a dependent of a member of any of the US military reserve forces who has been ordered to active duty.”

**Military Attendance Requirements:** A student (Child of Military Family) must be enrolled and attending on February 20<sup>th</sup>. If absent on February 20, 2014, then the student must have attended once on or after February 1<sup>st</sup> and once after February 20<sup>th</sup> but on or before March 4<sup>th</sup>.

**Military Funding Eligibility Criteria:** Districts meeting the criteria for increased enrollment of 25 FTE (full-time equivalency) military dependent students or by a number of military dependent students equal to 1% or more of the district’s total September 20 FTE enrollment are eligible for additional funding. The district’s enrollment count for purposes of state funding will be increased by the number of military dependent students enrolled and attending on February 20, 2014 who were not counted on the September 20<sup>th</sup> enrollment count. Districts should refer to the “Student of Military Families—District Eligibility for Additional Funding” Report in KIDS to see if they are qualified for additional MILT funding based on the data that they submitted to KIDS.

**FTE vs. Headcount:** The requirement for 25 new military dependent students and the military student enrollment 1% or more above the district’s September 20<sup>th</sup> enrollment are based on FTE and not on headcount.

**Second Semester Virtual Funding:** All students currently enrolled and attending a virtual course or program on February 20 should be reported. Additional funding is only available to second semester virtual AP students who were also counted in the September 2013 ENRL Collection. Students enrolling as a virtual AP student after the September 20<sup>th</sup> count day are not eligible for additional funding. Note: To verify which virtual students were submitted on the ENRL collection, access the KIDS Reports page and run the PBR Enrollment Report with the “Virtual Ed. Student” filter.

**Virtual Attendance Requirements:** Second semester virtual students must be enrolled on February 20<sup>th</sup>, but do not have to be in attendance on February 20<sup>th</sup>.

**Virtual Education Students:** If a student is marked as a Virtual Education Student, the transportation fields (Transportation Street Address, Student’s Transportation City, and Student’s Transportation Zip) must contain information for that virtual student.

**Concurrent High School Enrollment:** A district that has a student attending any Kansas Board of Regents approved and funding CTE course at a technical college or community college will report in Concurrent High School Enrollment a 1=“Any Kansas

Board of Regents approved and funded CTE course at a technical college or community college.”

**Career and Technical Education Contact Minutes:** Report the number of minutes a student received instruction in an approved for funding CTE course or State approved course on September 20. Note: the time spent in any approved CTE courses through a post-secondary institution should not be counted toward the minutes reported in this field. The funding for CTE courses that are concurrent enrollment, as reported in the Concurrent High School Enrollment field will not be included in the funding calculations at KSDE.

**Miles Transported:** If a student has 2.5 miles or greater reported in the Miles Transported field, the transportation fields (Transportation Street Address, Student’s Transportation City, and Student’s Transportation Zip Code must contain information for that transported student.

- ☐ A seat or an alternate mode of transportation must be provided for each student counted on the transportation list. This would apply to Miles Transported and Transportation FTE – students do not have to actually ride the bus, but should they choose to do so a seat must be made available.
- ☐ Students, enrolled in both a public school and private school, are counted for the same FTE on the bus transportation report as their enrollment is counted in the public school.
- ☐ Kindergarten students are counted as 1.0 FTE on the transportation list if transportation is provided to and from the attendance center at the district’s expense, or if the district provides reimbursement to parents.
- ☐ Pupils transported one way by special education transportation on September 20 and one way on regular route transportation can be claimed on regular route transportation as a .5 FTE and can be claimed on the special education transportation Form 308 for the cost of the return trip. However, the actual costs must be kept for the return trip.
- ☐ Do not include transportation of students to and from a technical school or community college.

**Non-resident Transportation:** The parent or legal guardian of any pupil who lives 2.5 or more miles from the attendance center the pupil would attend in the resident school district may apply to the board of education of a receiving school district for authority for such pupil to be furnished or provided transportation to school from the pupil’s residence and from school to the pupil’s residence by the receiving school district.

**Accredited Private Schools:** Accredited private schools do not need to submit MILT records.
