

Student Success Skills

Productive Practices (What it IS)	Unproductive Practices (What it is NOT)
Balanced goals of mathematical learning and performance goals	One-sided goals focused solely on performance or learning
High-quality, open mathematical tasks	Mathematical procedures and memorized facts
Promote Struggle as a Means of Learning	Alleviate Struggle as a Means of Help
Meaningful Student Discourse	Teacher-Directed Discussion
Effectively assess learning and performance goals	Assessment focuses on procedures over learning
Grades accurately communicate learning	Grade inflation misrepresents learning
